TRANSFORMING IRRIGATION MANAGEMENT IN NIGERIA (TRIMING) PROJECT (FEDERAL MINISTRY OF WATER RESOURCES)

PROJECT BACKGROUND

Transforming Irrigation Management in Nigeria (TRIMING) Project is a World Bank supported intervention of the Federal Government of Nigeria in the water resources and agriculture sub-sectors. The Project was approved by the Board of Directors of the World Bank on the 19th June 2014, but was officially declared effective on the 16th January 2015 and with closing date set as 30th April, 2022.

The Project planned to rehabilitate existing irrigation systems and develop additional areas to irrigate about 50,000ha with about 1,000,000 beneficiaries as well as to support overall integrated water resources management plan, dam operations improvement and safety, agricultural productivity and market linkages, innovations and research and development, among others. The total implementation cost of the Project is **USD 560.30 million.**

The major civil works involves rehabilitation and improvements at Bakolori, Kano River, Hadejia Valley and Dadin-Kowa Irrigation Schemes as well as upgrades and safety improvements of Bakolori, Goronyo, Zobe, Tiga, Challawa and Dadin-Kowa dams including Ruwan-kanya reservoir and Hadejia Barrage. Other Project specifics are:

1. **Project Title:** Transforming Irrigation Management in Nigeria (TRIMING) Project

Project ID:	P123112
Project Credit Number:	56060-NG
Effective Date:	16th January, 2015
Expected Closing Date:	30th April, 2022
Start Date (PPA):	16th April, 2013
Sector:	Irrigation & Drainage - 50%, and Water, Sanitation, & Flood Protection - 50%

2. **Project Development Objectives (PDO):** Improve performance of Irrigation and Water Resources Infrastructures and Water Institutions in targeted areas.

   Proposed key performance indicators (KPI): To measure project success in achieving the Project development objectives may include the following:

   - Areas provided with irrigation and drainage services (in improved areas and in new areas).
   - Number of water users provided with irrigation and drainage services (in improved areas and in new areas)
   - Number of operational Water users Association (in improved areas and in new areas).
     Area with new or improved irrigation services (ha.)
   - Number of Dams with safety hazard risks to downstream populations, private property and infrastructure reduced to international "as low as reasonably practicable" (ALARP) standards.

- Nigeria Integrated Water Resource Management Commission (NIWRMC) has established effective participatory water resources management and water allocation decision-making institutions in each selected basin.

3. Project Components: The Project has four components, namely:

A. Water Resource Management and Dam Operations Improvement
- Support to Integrated Water Resource Management
- Improvement of Dam Operation and Safety

B. Irrigation Development and Management
- Investment in Irrigation and Drainage Infrastructure
- Improvement of Irrigation Management

C. Enhancing Agricultural Productivity and Value Chains
- Support to Agricultural productivity and Market Linkages
- Support to Innovation and Research and Development (R & D)

D. Institutional Development & Project Management
- Institutional Development and Governance
- Project Management and Monitoring & Evaluation (M&E)

4. Implementing Arrangements

Implementing Agency: Federal Ministry of Water Resources which shall be responsible for overall Project implementation and management.

Project Steering Committee (PSC): The PSC provides overall project guidance, facilitating coordination of project activities, reviewing Project progress and performance, reviewing each Annual Work Plan and Budget and ensuring coherence with other related programs. The Project Steering Committee supervises the Project under the Chairmanship of the Permanent Secretary, Federal Ministry of Water Resources.

TRANSFORMING IRRIGATION MANAGEMENT IN NIGERIA (TRIMING) PROJECT (FEDERAL MINISTRY OF WATER RESOURCES)

Members of the National Project Steering Committee

The Permanent Secretary, Federal Ministry of Water Resources	Chairman
The Permanent Secretary, Federal Ministry of Power	Member
The Permanent Secretary, Federal Ministry of Finance	Member
The Permanent Secretary, Federal Ministry of Agriculture and Rural Development	Member
The Permanent Secretary, Federal Ministry of Environment	Member
The Honorable Commissioner, Ministry of Water Resources, Kano State	Member
The Honorable Commissioner, Ministry of Water Resources, Jigawa State	Member
The Honorable Commissioner, Ministry of Water Resources, Katsina State	Member
The Honorable Commissioner, Ministry of Water Resources, Zamfara State	Member
The Honorable Commissioner, Ministry of Water Resources, Sokoto State	Member
The Honorable Commissioner, Ministry of Water Resources, Gombe State	Member
Executive Director Engineering, Sokoto Rima River Basin Development Authority	Member
Executive Director Engineering, Hadejia Jama'are Rima River Basin Development Authority	Member
Executive Director Engineering, Upper Benue River Basin Development Authority	Member
Director, Irrigation and Drainage, Federal Ministry of Water Resources	Member
The National Project Coordinator, TRIMING Project	Member

Change Management Committee (CMC): Provides advice to the Steering Committee and the Project Management Unit (PMU) on the change management process.

Members of the Change Management Committee

Representative of Federal Ministry of Water Resources
Representative of Federal Ministry of Agriculture and Rural Development
Representative of Federal Ministry of Finance
Representative of Federal Ministry of Environment
Representative of Sokoto Rima River Basin Development Authority
Representative of Hadejia Jama'are Rima River Basin Development Authority
Representative of Upper Benue River Basin Development Authority
An adhoc, or Permanent basis, various respective leaders in the field of Irrigation Management, dam safety and Agriculture.

Project Management Unit (PMU)

The PMU is responsible for the overall day-to-day Project management and implementation including the consolidation and preparation of proposed annual work plans (AWP) of activities for inclusion in the Project; updating the procurement plan and related budgets and consolidation of Project Reports for the Steering Committee's review; Carrying out Project procurement activities; and Monitoring and Evaluation of the Project.

TRANSFORMING IRRIGATION MANAGEMENT IN NIGERIA (TRIMING) PROJECT (FEDERAL MINISTRY OF WATER RESOURCES)

PRINCIPAL OFFICERS OF THE PROJECT

Engr. Peter Y. Manjuk	- National Project Coordinator
Engr, Kenneth S, Sunmonu	- Water Resources Component Manager
Engr. Galadima M. Magaji	- Irrigation Component Manager
Abubakar M. Barka	- National Project Accountant
Abidoye Kunle Abisoye	- Procurement Specialist I
Layefa Bozimo	- Procurement Specialist II
Engr. Sirika A. Ahmad	- Monitoring & Evaluation Specialist
Onyebankole Agbelusi	- Environmental Safeguard Specialist
Engr Mohammed Sani Bala	- Data & Information Specialist
Engr. Anthea Ochedikwu Udo	- Communication Specialist
Hallai Garba	- Agribusiness Specialist
Mohammed Musa Argungu	- Social Safeguard Specialist
Mamman Modu	- Project Internal Auditor

Dahiru Abdulkareem, Procurement Specialist II left the TRIMING Project in January 2020 to take up another job as a Project Coordinator. As a result, Layefa Bozimo was deployed as the new Procurement Specialist II in January 2020.

AUDIT OF THE TRANSFORMING IRRIGATION MANAGEMENT IN NIGERIA (TRIMIN), PERFORMED BY THE AUDITOR GENERAL FOR THE FEDERATION

AUDITOR'S REPORT

Opinion

I have audited the financial statements of Transforming Irrigation Management in Nigeria (TRIMIN), for the year ended 31st December, 2020. These financial statements comprise the *Statement of Financial Position, Statement of Financial performance, Cashflow Statement and Statement of Net Assets/Equity* for the year then ended, and a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as at 31st December, 2020, and of its financial performance and its cash flows for the year then ended in accordance with International Public Sector Accounting Standards (IPSAS).

Basis for Opinion

I conducted the audit in accordance with International Standards for Supreme Audit Institutions (ISSAIs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* Section of my report. I am independent of the entity in accordance with the Code of Ethics for Supreme Audit Institutions together with the ethical requirements that are relevant to my audit of the financial statements and I have fulfilled my other ethical responsibilities in accordance with these requirements and the Code of Ethics.

I believe that the audit evidences obtained are sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IPSAS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the project or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with (ISSAIs), will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Financial Audit Methodology (FAM), which is consistent with the Fundamental Auditing Principles (ISSAIs 100-999) of the International Standards for Supreme Audit Institutions, I exercise professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.

- Evaluate the appropriateness of accounting policies uses and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence, obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be brought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or, when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANGBO, B. Y. FCNA, FCTI

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST DECEMBER, 2020

Note 1: Statement of compliance with IPSAS

The Financial Statements has been prepared in accordance with the accrual basis of International Public-Sector Accounting Standards (IPSAS).

Note 2: Statement of Accounting Policies

The following is the summary of the significant Accounting Policies adopted in the preparation of the Project's General Purpose Financial Statements:

a. Basis of preparation

The Financial Statements have been prepared under the historical cost convention and in accordance with International Public Sector Accounting Standards (IPSAS)

b. Principal Activities

The Project, which does not have profit motive, principally engaged in the following activities:

- Improvement of access to Irrigation and Drainage services
- Strengthening Institutional arrangements for integrated water resources management
- Agricultural service delivery in selected large -scale public schemes in Northern Nigeria as pilot schemes.

c. Funds

All contributions by the financier were only recognized when received and capitalized as IDA Credit/Fund, and Federal Government contribution as Counterpart Fund. This fund is subsequently increased or reduced by surplus or deficit from the statement of financial performance. A breakdown of the funds received by the project to date is as follows:

Donor Contribution - ₦45,652,180,091.94 at N360/USD

FGN Counterpart Fund - ₦7,794,565,271.21

d. Recognition of Revenue & Expenditure

Revenue and expenditures are recognised when they become receivable or payable or earned.

Revenue was recognised for the period it is earned.

e. Non-current Assets

i. Non- current assets acquired during the year (if any) were stated at cost.

ii. Depreciation was provided on the non-current assets at a reducing balance method at the rate of 25% annual charge as shown below:

SN	Asset	Rate
i.	Plants	25%
ii.	Equipment	25%
iii.	Furniture & Fittings	25%
iv.	Motor Vehicles	25%

iii. In the opinion of the Principal Officers, non-current assets will be transferred to the Implementing Agency – in Federal Ministry of Water Resources at the end of the Project's life, at carrying amount (net book value).

f. Reporting/Foreign Currency

The financial statements were prepared using the Nigerian Naira as the reporting currency.

Transactions in foreign currency were translated at the rate of exchange ruling at the transaction date, while all foreign accounts balances were translated at the rate of exchange of ₦324.99/$ at the reporting dates. Exchange difference arising from translation was recognised.

g. Deferred Taxation

No provision was made for deferred taxation because the Project is exempted from payment of income tax by law.
